Great job though to the developers This is an amazing VN in my opinion everything fit surprisingly well - the music, the art, everything.

No spoilers of course but it sure turns it out better than it looks Touching and great experimental novelSPOILERS BELOW DO NOT READ UNTIL YOU ARE DONE - IT'S A GREAT STORYThe fact that the ending was so miserable yet was supposed to be touching was not a good feeling for me.. I understand why I understand why it's necessary On some level, I am even relieved by it.. The protagonist, Quentin, finds himself experiencing a chain of events that leads him to what can only be described as a new life.. Every fiber of my body can attest to that I am soon getting on a bus together with the rest of the young, healthy people of my neighborhood.. I don't play games to experience real-life sadness and that's what I got Some really unhappy feelings met me at the end and I'm glad I have normal horror games to play now because this was REAL SADNESS FROM OUR REAL WORLD which is not good.. We are, after all, on the brink of becoming a dying breed Or so they say, anyway.. Social disinterest Isolation They have a plan for making this right, because so far it has all been so, so wrong.. We are leaving for a settlement It's a settlement where futures are made, supposedly.. This is an amazing VN in my opinion everything fit surprisingly well - the music, the art, everything. I love it and I'd buy a million sequels but I don't like real life in my stories.. "—Quentin, protagonist of AnomieAnomie is set in a fictional world that resembles our modern day.. [ly/2JWbFOG](http://bit.ly/2JWbFOG)About This Game“Some would call this a dystopia It is, after all, a time in history where your individual will cannot be respected as it once could.. Where free wills are neglected, presumably Where the human race will get another chance at surviving, hopefully.. Its really immersive which is a huge thumbs up in my book i do recommend people to try this out :). [Mail Pilot 3.39 Aircraft](#)

Anyway I'd give it a 9/10 for a mostly boring story and a beautiful yet horrible ending that made me feel terrible.. I am being

ripped out of my ordinary life, and I will be put into the system's hands.. unique adventurea09c17d780Title: AnomieGenre: Action, Adventure, Casual, IndieDeveloper:Cascade of LeavesPublisher:Cascade of LeavesRelease Date: 22 Aug, 2017English This was one of the most beautiful and moving visual novels I have played - let me tell you it is great but it has a boring middle and beginning - if I hadn't seen tinges of greatness I never would have anticipated the ending which was great..
